Meeting this requirement will be addressed at the ITR staffing prior to accepting any case for services. Children in in-home care need to be photographed within 15 days of being transferred to a services unit.

b. Any child under in-home supervision or out-of-home care who was previously reported as missing and returns will have his/her photograph taken immediately, unless the child's appearance has not changed significantly since the last photograph.

i. For children sent to Florida from another state or when a child is sent from one circuit/region of the state to another for courtesy supervision, it will be the responsibility of the Child Welfare Case Manager supervising the child to maintain a current photograph of the child in his/her case record and be updated accordingly. The child's photograph will be kept in the case record of the circuit/region that is providing the courtesy supervision.
